Monmouth County Multi-Jurisdictional Hazard Mitigation Plan Update

Adopted Plan Cover, 2009

Planning Timeline

- First plan adopted in 2009; updates are required every five years
- Update process began in June 2012 and is ongoing
- •The draft plan is expected to be released at the end of April 2014
- FEMA approval and jurisdictional adoptions of the updated plan are anticipated in 2015

Background

Natural hazards are a part of life throughout Monmouth County. All of our hazards have the potential to cause property loss, loss of life, economic hardship, and threats to public health and safety. An important part of emergency management involves hazard mitigation – which is, essentially, actions and projects undertaken to protect things before they get damaged. A hazard mitigation plan describes the hazards that can occur in a community, and then presents actions and projects that will be done to reduce key risks.

Purpose and Need

The Multi-Jurisdictional Natural Hazard Mitigation Plan for Monmouth County was adopted in 2009 to meet the requirements of the Disaster Mitigation Act of 2000 (or "DMA 2000"). Its development was led by the County under a FEMA planning grant that covered the costs of its preparation. Though it wasn't required, Monmouth County opted to use what FEMA calls a 'multi-jurisdictional' approach - meaning that instead of it just being a plan for the County government, every municipality was invited to participate as an equal partner with the County. Adopting a FEMA approved hazard mitigation plan opened the door for all participating municipalities to be in compliance with DMA 2000, and

eligible to apply for hazard mitigation project grants. To stay in compliance with DMA 2000, the plan must be updated every five years. The update ensures that the plan remains current in its discussion of local risks and risk reduction strategies. The County has once again obtained FEMA grant funding to cover the cost of this first plan update, and has opted to continue its 'multi-jurisdictional' approach. Each jurisdiction in the County is attending meetings, providing feedback in a series of topic areas, reaching out to the public and other key stakeholders, and updating their local mitigation strategy.

For More Information

For questions or other feedback, or to find out how you can become involved, please contact your local elected official or Emergency Management Coordinator; the Monmouth County Office of Emergency Management at 732-431-7400; or visit our web site at www.mcsonj.org. Periodic updates are also posted on the Monmouth County Sheriff's Office Facebook page.

Natural disasters cannot be prevented from occurring but, if we tackle some of the biggest risks with hazard mitigation projects, eventually, our hazards won't become disasters.

Here, a flood prone home was acquired and the property was converted to parkland. During the next storm, the residents were safe in their new home on higher ground, and no damages were incurred on this parcel.
